

Qualifications Review Consultation Meetings

Recently we have had several consultation meetings to discuss our proposals for updating PaMPITO qualifications.

We received great feedback from those who participated which has impacted directly on our qualification amendment applications to NZQA.

If you are interested in the detail of our plans you can find our updated and detailed documents on our website <http://www.pampito.org.nz/Qualifications.asp> where I will be updating and adding documentation throughout October 2009.

Please feel free to provide input to us about our amendments, particularly if you know people who weren't able to attend the consultation meetings.

We look forward to preparing your industry qualifications for new and invigorated use in 2010.

Matiu Payne
Quality Systems Manager
